Subject: Roll-off data - 2

Hello Joyce,

I believe you should actually have all of the roll-off result data in the reports I sent. If you are missing any, please let me know, and I can get those to you. This table displays the sample numbers to reference to make decisions on the roll-off bins and whether any can stay on site and be used as backfill in the pits, or whether they should be taken offsite to either Front Range or Kimball. In the TA job number – the corresponding report can be determined by simply removing the preceding “180-” from the name, and replacing it with a J. Please let me know if you have any other questions.
